

Imagination Candy

COM2D20 combines a shelf with drawers. It features a reinforced top, capable of carrying a TV weighing up to 200 pounds, without the need for a top. It's the ultimate all-in-one TV stand and a great stacking module.

COM2D20 is sized like all 20" high cabinets, so it can integrate seamlessly into any configuration. Full extension sliders provide access to every inch of drawer space - and the safety interlocking feature allows only one drawer to open at a time. The rear cutout at the back of the shelf enables you to keep your electronics connected to your TV and your power source.

COM2D20 combines 2 drawers, that will hold 240 DVDs or 540 CDs (1080 in slimline cases), with an AV shelf that has room for two electronic components. This module can be extremely useful in configurations where only 2 components are required. It can also be used for electronics that need to be exposed at all times for your remotes, while other components can be tucked away in flip-door pullout cabinets.

COM2D20X puts it all together in a TV stand package that includes a set Wheels (WHEELS) and a set of Dividers & Backstops (DIVBS12).

SPECIFICATIONS

Weight: 78 lbs
 Cabinet Dimension: 37.75" W x 20.5" H x 20" D
 Inside Drawer: 34" W x 6" H x 18" D
 Shelf Space: 35" W x 5" H x 20" D
 Weight Capacity: 80 lbs per drawer / TV capacity: 200 lbs

CAPACITY: 540 CDs or 240 DVDs in standard packaging. 1080 CDs in slimline cases. 2000+ paper or plastic sleeves.

MATCHING COMPONENTS

The COM2D20 shares the dimension of the cabinets shown at right. This is useful when stacking cabinets to create configurations that meet at a common height. See the item page for details.

OPTIONS: WHEELS / CADDY / LEGS / TOP / DIVIDERS & BACKSTOPS

Note: For TVs weighing more than 200 lbs we recommend a mica top, which distributes the weight of the TV to the frame of the cabinet.
