

Here the FCOM1D27 is outfitted with a pullout shelf (PUSHE)

Note: There is no divider between the top and bottom halves of this cabinet. Therefore a mini drawer, pullout shelf, or stationary shelf is required. The mini drawer will accommodate data binders up to 11" tall.

Half Lateral Filing Cabinet - Half Flip-door Pullout Imagination Candy

A lateral filing cabinet on the bottom, a flip-door pullout cabinet on top. Outfitted with a mini drawer in the top section the FCOM1D27 handles your files and data binders. Choose a pullout shelf and it provides limitless opportunities for laptops, electronics, printers or even a hidden projector ready to dazzle. This cabinet is unique and as versatile as your imagination. Go ahead. Imagine the possibilities. Go Configure.

The Perfect Office Companion - Like all Can-Am cabinets, FCOM1D27 fits seamlessly into virtually any modular configuration - but with this flexibility FCOM1D27 has found a real niche in corporate and home office settings. Optional legs, wheels, pullout shelves or mini-drawers, and tops finish it off nicely. 18 powder coat colors mean it will match any decor and it will do it in style.

You Could Even Have It On Wheels

Imagine a printer station that doubles as mobile file storage or a mobile work station, or wheel it around as a presentation cart.

Tight On Space?

FCOM1D27 also comes in a narrow version, at about 2 feet wide, as F1D27X24. Combine the two to reach virtually any width.

SPECIFICATIONS

CAPACITY: The bottom drawer holds letter or legal sized hanging files, or up to 80 lbs of items up to 12" tall.

MATCHING COMPONENTS

The FCOM1D27 shares the dimension of the cabinets on the right. This is useful to create configurations that line up. It will also stack with any standard width cabinets or line up with any narrow cabinet in the 27 series. See the item page for details.

- Room for lots of standard components and oversized items
- Adjustable feet levelers provide stability and lift the cabinet off the floor. The levelers rest in dimples topside for positive positioning when stacking
- Provides dust-free space efficient storage
- Series of tabs accept pullout or stationary shelves or mini-drawers, which can be placed in several positions in the flip-door area
- Like all Can-Am cabinets, there is no assembly required.
