

Need a place for important files, insurance policies, deeds, birth certificates, printouts, etc.? This is the place.

Secure hanging file storage for people who don't want a filing cabinet. HFCAB14 is sized like a two drawer cabinet (MC2D14) to integrate seamlessly into virtually any Can-Am configuration. Imagine a filing cabinet in your A/V center.

Here's a module that works like a filing cabinet - but doesn't look like one!

You might not even notice it's there... until you need those important or sensitive papers that are being kept safe and secure in this locking module. The two drawers lock independently, allowing you to keep one drawer secure, while allowing access to the other one. Keep your important documents secure while having full access to those you need on a day-to-day basis.

HFCAB14 can be configured for legal or letter size files. It's ideal in a computer station or for a home office or corporate workstation configuration.

They're not just for files - These 12" deep drawers are our deepest drawers and will accommodate the largest items. Full extension sliders give you access to every inch of drawer space. Our customers have used them for large tools, computer components, secure storage of laptops - use your imagination, what can you fit in HFCAB14?

- Can be configured for legal or letter size hanging files
- Heavy Duty Full-Extension Ball Bearing Sliders
- Includes hardware for connecting when stacking

MATCHING COMPONENTS

The HFCAB14 shares the dimension of the cabinets shown right. This is useful when stacking cabinets to create configurations that meet at a common height. See the item page for details.

OPTIONS: WHEELS / CADDY / LEGS / TOPS

This configuration consists of two 2-drawer cabinets, a flip-door cabinet (FDCAB14), a double length mica top (TOP75) and the HFCAB14.

- 12" deep drawers for taller items up to 80 lbs
- Adjustable feet levelers provide stability and lift the cabinet off the floor. The levelers rest in dimples topside for positive positioning when stacking
- Provides dust-free space efficient file storage
- Integrates seamlessly into any Can-Am configuration.
