

Extra Tall for Extra Capacity!

MC3D27 features oversized 8" high drawers, for media and other items that may be too tall for our 6" drawers. MC3D27 has taller drawers for taller media, oversized CD packaging, medical optical disc, tabbed vinyl sleeves, in-drawer indexing systems and other items that are between 6 and 8 inches in height. If that's not tall enough, consider our cabinets featuring 9" or 12" tall drawers.

MC3D27 is sized like our 4 Drawer Cabinet (MC4D27) and will integrate seamlessly into configurations. This cabinet complement our 27 Series line of cabinets - see 'Matching Components' below.

MATCHING COMPONENTS

The CAB27/CABDR27 shares the dimension of the cabinets shown on the right. This is useful when creating configurations that meet at a common height.

CAB27/CABDR27 will also stack with any standard width cabinets or line up with any narrow cabinet in the 27 series. See the individual item pages for more details.
