

**Tops are beautiful and practical. The perfect finishing touch for your configuration or TV stand.**

A mica top is a beautiful, and durable, finishing touch to your cabinet or stack of cabinets. Post formed mica laminated to wood, similar to kitchen counters, make great working surfaces and distribute the weight of heavier objects and TVs to the frame of the cabinet below.

Mica tops are custom fitted, and require no tools! They are available in single length, for a single cabinet or stack of cabinets, or double length, for side-by-side cabinets. There are tops for 24" narrow cabinets (TOP24 or TOP47) and some work with speaker boxes or cabinet combinations (TOP56 / TOP61). All tops add 4 inches to the depth of the cabinet, for a total depth of 24 inches. Three inches on one side and one inch on the other. Use the deeper side at the back to conceal stereo wiring or in the front as a counter toe relief.

**TOP38 - Single Length Top (CT1)**

Fits on top of a single cabinet or stack

**SPECIFICATIONS**

Weight: 18 lbs  
Dimension: 37.75" W x 2" H x 24" D  
Construction: Post formed mica on wood

**TOP75 - Double Length (CT2)**

Our double length top takes two side-by-side cabinets or stacks that meet at a common height, and transforms it into one unit or a or king size TV stand.

**SPECIFICATIONS**

Weight: 36 lbs  
Dimension / Construction: 75.5" W x 2" H x 24" D  
Post formed mica on wood

**COLORS:** 11 Top Colors

**VARIETY OF LENGTHS AVAILABLE**

TOP38 / TOP75 / TOP24 / TOP47 / TOP56 / TOP61

Why so many lengths? So you can combine modules. For example a 23.5" wide cabinet next to a 37.75" cabinet is 61.25". Our TOP61 is 61.25 inches wide.

**FEATURES**

- Post-Formed laminate provides an extremely durable surface
- Rounded edges front and back, are gentle with no sharp corners

- Tops are recess custom fitted - no installation required
- Transfers the weight of heavy objects to the cabinet frame
- Tops add one inch in height and four inches in depth.
